Elsie and Jack Recordings are proud to present the debut release from mr. c.jeely as September Plateau. His name may be familiar to some under the guise of acceleradeck, whose recent appearances have garnered him both critical acclaim and a solid fan base.

acceleradeck's highlights include releases on Enraptured/Endorphin, Rocket Racer and how could one forget his contribution to the Spacemen 3 tribute record on Rocketgirl?!

With September Plateau, jeely ventures to the polar opposite of acceleradeck. The intricate mix of guitar washes and fluttering, scattering beats is awe-inspiring and evokes happy memories of My Bloody Valentine, Windy & Carl and The Durutti Column.

Though it seems as though c.jeely rejects rock & roll conventions, he doesn't subscribe to the precious tendencies of anti-rock. Instead, he writes some of the most translucent, glimmering and beautiful guitar-based melodies.
